

Advanced Technical Services

Fleet Installation Services

Providing equipment installation and support solutions to the Automotive & Fleet industry since 1981

Advanced Technical Services (ATS), an ISO-9000 registered company, has designed its Fleet installation offerings to meet the highest standards of installation quality, delivery, and timeliness.

The Advanced Technical Services installation team is committed to delivering the highest level of customer satisfaction throughout the installation process. We offer a variety of customer interfacing solutions designed to minimize equipment downtime in order to keep the customers' fleet operating and generating revenue.

ATS fleet installation support solutions include; a dedicated team of well trained and certified installation technicians to insure quality installations, rapid response and scheduling of new customer installations, and timely field solutions for fleet maintenance and upgrade opportunities.

All ATS Fleet Installation solutions are designed around the need to free up customer resources and to make certain their critical equipment is available when and where it is needed most.

Certified & Trained Technical Staff

ATS's team of highly skilled coordinators, technicians, and field crews have supported the needs of major fleet customers across the United States. Since 2000, the ATS technical staff has installed over 150,000 tracking solutions for their customers. The ATS installation team has an average of over 20 years of electronic installation experience.
